

MARS JEWETT FINANCIAL GROUP, INC.

a Registered Investment Adviser

11235 SE 6th Street, Suite 110
Bellevue, WA 98004

(425) 289-5000

<https://marsjewett.com>

This brochure provides information about the qualifications and business practices of Mars Jewett Financial Group, Inc. (hereinafter “MJFG” or the “Firm”). If you have any questions about the contents of this brochure, please contact the Firm at the telephone number listed above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority. Additional information about the Firm is available on the SEC’s website at www.adviserinfo.sec.gov. The Firm is a registered investment adviser. Registration does not imply any level of skill or training.

Item 2. Material Changes

In this Item, MJFG is required to discuss any material changes that have been made to the brochure since the last annual amendment on February 5, 2021. The Firm has no changes to disclose in relation to this item. Item 5 has been updated to add language to make it clear that the Firm bills on cash in the account. Furthermore, the Firm's fee schedule in Item 5 has changed to:

<u>PORTFOLIO VALUE</u>	<u>BASE FEE</u>
First \$1,000,000	1.00%
Next \$9,000,000	0.55%
Above \$10,000,000	0.45%

Item 17. Voting Client Securities 17

Item 18. Financial Information 17

Item 4. Advisory Business

MJFG offers a variety of advisory services, which include financial planning, consulting, and investment management services. Prior to MJFG rendering any of the foregoing advisory services, clients are required to enter into one or more written agreements with MJFG setting forth the relevant terms and conditions of the advisory relationship (the “Advisory Agreement”).

MJFG filed for registration as an investment adviser in June 2018 and is owned by Glenn Mars, Scott Jewett, Brian Mars and Elizabeth Sowle. As of December 31, 2021, MJFG had \$605,001,189 in assets under management, \$602,796,329 of which was managed on a discretionary basis and \$2,204,860 of which was managed on a non-discretionary basis.

While this brochure generally describes the business of MJFG, certain sections also discuss the activities of its Supervised Persons, which refer to the Firm’s officers, partners, directors (or other persons occupying a similar status or performing similar functions), employees or other persons who provide investment advice on MJFG’s behalf and are subject to the Firm’s supervision or control.

Financial Planning and Consulting Services

MJFG offers clients a broad range of financial planning and consulting services, which include any or all of the following functions:

- Business Planning
- Trust and Estate Planning
- Insurance Planning
- Retirement Planning
- Risk Management
- Charitable Giving
- Education Planning
- Portfolio Design

In performing these services, MJFG is not required to verify any information received from the client or from the client’s other professionals (e.g., attorneys, accountants, etc.) and is expressly authorized to rely on such information. MJFG recommends certain clients engage the Firm for additional related services, its Supervised Persons in their individual capacities as insurance agents or registered representatives of a broker-dealer and/or other professionals to implement its recommendations. Clients are advised that a conflict of interest exists for the Firm to recommend that clients engage MJFG or its affiliates to provide (or continue to provide) additional services for compensation, including investment management services. Clients retain absolute discretion over all decisions regarding implementation and are under no obligation to act upon any of the recommendations made by MJFG under a financial planning or consulting engagement. Clients are advised that it remains their responsibility to promptly notify the Firm of any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising MJFG’s recommendations and/or services.

Investment Management Services

MJFG manages client investment portfolios on a discretionary or non-discretionary basis. MJFG primarily allocates client assets among various mutual funds and exchange-traded funds (“ETFs”) in accordance with their stated investment objectives. Where appropriate, the Firm also provides advice about any type of legacy position or other investment held in client portfolios, but clients should not assume that these assets are being continuously monitored or otherwise advised on by the Firm unless specifically agreed upon. MJFG has been engaged by Mutual Securities Inc. (“Mutual”) to provide on-going advice with respect to its clients’ legacy investments custodied with Mutual. For clients who have provided their written consent to this arrangement, MJFG’s advice will include periodic reviews of the investments, including whether to continue to hold them in consideration of the client’s investment needs and objectives. Clients can engage MJFG to manage and/or advise on certain investment products that are not maintained at their primary custodian, such as variable life insurance and annuity contracts and assets held in employer sponsored retirement plans and qualified tuition plans (i.e., 529 plans). In these situations, MJFG directs or recommends the allocation of client assets among the various investment options available with the product. These assets are generally maintained at the underwriting insurance company or the custodian designated by the product’s provider.

MJFG tailors its advisory services to meet the needs of its individual clients and seeks to ensure, on a continuous basis, that client portfolios are managed in a manner consistent with those needs and objectives. MJFG consults with clients on an initial and ongoing basis to assess their specific risk tolerance, time horizon, liquidity constraints and other related factors relevant to the management of their portfolios. Clients are advised to promptly notify MJFG if there are changes in their financial situation or if they wish to place any limitations on the management of their portfolios. Clients can impose reasonable restrictions or mandates on the management of their accounts if MJFG determines, in its sole discretion, the conditions would not materially impact the performance of a management strategy or prove overly burdensome to the Firm’s management efforts.

Retirement Plan Consulting Services

MJFG provides various consulting services to qualified employee benefit plans and their fiduciaries. This suite of institutional services is designed to assist plan sponsors in structuring, managing and optimizing their corporate retirement plans. Each engagement is individually negotiated and customized, and includes any or all of the following services:

- Plan Design and Strategy
- Plan Review and Evaluation
- Executive Planning & Benefits
- Investment Selection
- Plan Fee and Cost Analysis
- Plan Committee Consultation
- Fiduciary and Compliance
- Participant Education

As disclosed in the Advisory Agreement, certain of the foregoing services are provided by MJFG as a fiduciary under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). In accordance with ERISA Section 408(b)(2), each plan sponsor is provided with a written description of MJFG’s fiduciary status, the specific services to be rendered and all direct and indirect compensation the Firm reasonably expects under the engagement.

Item 5. Fees and Compensation

MJFG offers services on a fee basis, which includes fixed fees, as well as fees based upon assets under management.

Financial Planning and Consulting Fees

MJFG charges a fixed fee for providing financial planning and consulting services under a stand-alone engagement. These fees are negotiable, but range from \$1,500 to \$5,000, depending upon the scope and complexity of the services and the professional rendering the financial planning and/or the consulting services. If the client engages the Firm for additional investment advisory services, MJFG may offset all or a portion of its fees for those services based upon the amount paid for the financial planning and/or consulting services.

The terms and conditions of the financial planning and/or consulting engagement are set forth in the Advisory Agreement and MJFG charges its fees upon completion of the agreed upon services. The Firm does not, however, take receipt of \$1,200 or more in prepaid fees in excess of six months in advance of services rendered.

Investment Management Fees

MJFG offers investment management services for an annual fee based on the amount of assets under the Firm’s management. This management fee varies in accordance with the following blended fee schedule:

<u>PORTFOLIO VALUE</u>	<u>BASE FEE</u>
First \$1,000,000	1.00%
Next \$9,000,000	0.55%
Above \$10,000,000	0.45%

The annual fee is prorated and charged quarterly, in advance, based upon the market value of the assets being managed by MJFG on the last day of the previous billing period as valued by the custodian of the

assets. If assets are deposited into or withdrawn from an account after the inception of a billing period, the fee payable with respect to such assets is adjusted to reflect the interim change in portfolio value. For the initial period of an engagement, the fee is calculated on a *pro rata* basis. In the event the advisory agreement is terminated, the fee for the final billing period is prorated through the effective date of the termination and the outstanding or unearned portion of the fee is charged or refunded to the client, as appropriate.

For asset management services MJFG provides with respect to legacy investments custodied at Mutual, the Firm is paid an annual fee of 0.39% by Mutual. A conflict of interest exists for the Firm to recommend clients move their legacy investments to MJFG where the fee paid by Mutual is lower than the fee the client would pay under the Firm's standard fee schedule. The Firm has implemented policies and procedures to ensure that fees charged to clients remain fair and that its investment recommendations remain consistent with client's investment needs and objectives. Clients retain absolute discretion over all decisions regarding engaging the Firm.

The Firm includes cash in a clients account in determining the valuation for billing purposes. The Firm may, in its sole discretion, not include cash in determining the fee, especially where a client has a high percentage of cash for reasons other than the Firm's investment management decision. Additionally, for asset management services MJFG provides with respect to certain client holdings (e.g., held-away assets, accommodation accounts, alternative investments, etc.), the Firm may negotiate a fee rate that differs from the range set forth above.

Clients are advised that a conflict of interest exists for the Firm to recommend that clients engage MJFG or additional services for compensation, including rolling over retirement accounts or moving other assets to the Firm's management. As set forth above, clients retain absolute discretion over all decisions regarding engaging the Firm and are under no obligation to act upon any of the recommendations.

Retirement Plan Consulting Fees

MJFG charges an asset-based fee to provide clients with retirement plan consulting services. Each engagement is individually negotiated and tailored to accommodate the needs of the individual plan sponsor, as memorialized in the Agreement. These fees vary, based on the scope of the services to be rendered, and range between 35 and 50 basis points (0.35% – 0.50%), depending upon services provided and the amount of assets to be advised on. These fees may be charged directly to the plan sponsor or, in certain cases, directly to plan assets (as an investment expense).

Fee Discretion

MJFG may, in its sole discretion, negotiate to charge a lesser fee based upon certain criteria, such as anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be

managed, related accounts, account composition, pre-existing/legacy client relationship, account retention and pro bono activities.

Additional Fees and Expenses

In addition to the advisory fees paid to MJFG, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively “Financial Institutions”). These additional charges include securities brokerage commissions, transaction fees, custodial fees, margin costs, charges imposed directly by a mutual fund or ETF in a client’s account, as disclosed in the fund’s prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. The Firm’s brokerage practices are described at length in Item 12, below.

Direct Fee Debit

Clients provide MJFG with the authority to directly debit their accounts for payment of the investment advisory fees. The Financial Institutions that act as the qualified custodian for client accounts, from which the Firm retains the authority to directly deduct fees, have agreed to send statements to clients not less than quarterly detailing all account transactions, including any amounts paid to MJFG. Alternatively, clients may elect to have MJFG send a separate invoice for direct payment.

Account Additions and Withdrawals

Clients can make additions to and withdrawals from their account at any time, subject to MJFG’s right to terminate an account. Additions can be in cash or securities provided that the Firm reserves the right to liquidate any transferred securities or declines to accept particular securities into a client’s account. Clients can withdraw account assets on notice to MJFG, subject to the usual and customary securities settlement procedures. However, the Firm designs its portfolios as long-term investments and the withdrawal of assets may impair the achievement of a client’s investment objectives. MJFG may consult with its clients about the options and implications of transferring securities. Clients are advised that when transferred securities are liquidated, they may be subject to transaction fees, short-term redemption fees, fees assessed at the mutual fund level (e.g., contingent deferred sales charges) and/or tax ramifications.

Item 6. Performance-Based Fees and Side-by-Side Management

MJFG does not provide any services for a performance-based fee (i.e., a fee based on a share of capital gains or capital appreciation of a client's assets).

Item 7. Types of Clients

MJFG offers services to individuals, trusts, estates, charitable organizations, corporations and other business entities, and pension and profit sharing plans.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis and Investment Strategies

MJFG has an investment planning committee that meets monthly to review the mutual funds and ETFs used in the Firm's model portfolios. The product selection process focuses on qualitative and quantitative analysis. To start: expense ratios, manager tenure, turnover, and manager ownership, are key metrics MJFG measures. The Firm then applies modern portfolio statistics to further screen client investments. Risk adjusted returns and consistency measurements are particularly reviewed in this stage of MJFG's selection process. Finally, the Firm looks at historic investment results though it believes that this is the least important screening metric since past performance is not a guarantee of future results. Ultimately, MJFG is looking for time tested funds, at below average expense, with track records of competitive risk adjusted returns compared to their investment category.

Risk of Loss

The following list of risk factors does not purport to be a complete enumeration or explanation of the risks involved with respect to the Firm's investment management activities. Clients should consult with their legal, tax, and other advisors before engaging the Firm to provide investment management services on their behalf.

Market Risks

Investing involves risk, including the potential loss of principal, and all investors should be guided accordingly. The profitability of a significant portion of MJFG's recommendations and/or investment decisions may depend to a great extent upon correctly assessing the future course of price movements of

stocks, bonds and other asset classes. In addition, investments may be adversely affected by financial markets and economic conditions throughout the world. There can be no assurance that MJFG will be able to predict these price movements accurately or capitalize on any such assumptions.

Volatility Risks

The prices and values of investments can be highly volatile, and are influenced by, among other things, interest rates, general economic conditions, the condition of the financial markets, the financial condition of the issuers of such assets, changing supply and demand relationships, and programs and policies of governments.

Cash Management Risks

The Firm may invest some of a client's assets temporarily in money market funds or other similar types of investments, during which time an advisory account may be prevented from achieving its investment objective.

Mutual Funds and ETFs

An investment in a mutual fund or ETF involves risk, including the loss of principal. Mutual fund and ETF shareholders are necessarily subject to the risks stemming from the individual issuers of the fund's underlying portfolio securities. Such shareholders are also liable for taxes on any fund-level capital gains, as mutual funds and ETFs are required by law to distribute capital gains in the event they sell securities for a profit that cannot be offset by a corresponding loss.

Shares of mutual funds are generally distributed and redeemed on an ongoing basis by the fund itself or a broker acting on its behalf. The trading price at which a share is transacted is equal to a fund's stated daily per share net asset value ("NAV"), plus any shareholders fees (*e.g.*, sales loads, purchase fees, redemption fees). The per share NAV of a mutual fund is calculated at the end of each business day, although the actual NAV fluctuates with intraday changes to the market value of the fund's holdings. The trading prices of a mutual fund's shares may differ significantly from the NAV during periods of market volatility, which may, among other factors, lead to the mutual fund's shares trading at a premium or discount to actual NAV.

Shares of ETFs are listed on securities exchanges and transacted at negotiated prices in the secondary market. Generally, ETF shares trade at or near their most recent NAV, which is generally calculated at least once daily for indexed based ETFs and potentially more frequently for actively managed ETFs. However, certain inefficiencies may cause the shares to trade at a premium or discount to their pro rata NAV. There is also no guarantee that an active secondary market for such shares will develop or continue to exist. Generally, an ETF only redeems shares when aggregated as creation units (usually 20,000 shares or more). Therefore, if a liquid secondary market ceases to exist for shares of a particular ETF, a shareholder may have no way to dispose of such shares.

Item 9. Disciplinary Information

MJFG has not been involved in any legal or disciplinary events that are material to a client's evaluation of its advisory business or the integrity of its management.

Item 10. Other Financial Industry Activities and Affiliations

This item requires investment advisers to disclose certain financial industry activities and affiliations. The Firm has no disclosures related to this item.

Item 11. Code of Ethics

MJFG has adopted a code of ethics in compliance with applicable securities laws ("Code of Ethics") that sets forth the standards of conduct expected of its Supervised Persons. MJFG's Code of Ethics contains written policies reasonably designed to prevent certain unlawful practices such as the use of material non-public information by the Firm or any of its Supervised Persons and the trading by the same of securities ahead of clients in order to take advantage of pending orders.

The Code of Ethics also requires certain of MJFG's personnel to report their personal securities holdings and transactions and obtain pre-approval of certain investments (*e.g.*, initial public offerings, limited offerings). However, the Firm's Supervised Persons are permitted to buy or sell securities that it also recommends to clients if done in a fair and equitable manner that is consistent with the Firm's policies and procedures. This Code of Ethics has been established recognizing that some securities trade in sufficiently broad markets to permit transactions by certain personnel to be completed without any appreciable impact on the markets of such securities. Therefore, under limited circumstances, exceptions may be made to the policies stated below.

When the Firm is engaging in or considering a transaction in any security on behalf of a client, no Supervised Person with access to this information may knowingly effect for themselves or for their immediate family (*i.e.*, spouse, minor children and adults living in the same household) a transaction in that security unless:

- the transaction has been completed;
- the transaction for the Supervised Person is completed as part of a batch trade with clients; or

- a decision has been made not to engage in the transaction for the client.

These requirements are not applicable to: (i) direct obligations of the Government of the United States; (ii) money market instruments, bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments, including repurchase agreements; (iii) shares issued by money market funds; and (iv) shares issued by other unaffiliated open-end mutual funds.

Clients and prospective clients may contact MJFG to request a copy of its Code of Ethics.

Item 12. Brokerage Practices

Recommendation of Broker-Dealers for Client Transactions

MJFG recommends that clients utilize the custody, brokerage and clearing services of National Financial Services LLC and Fidelity Brokerage Services LLC (together with affiliates, "Fidelity") for investment management accounts. The final decision to custody assets with Fidelity is at the discretion of the client, including those accounts under ERISA or IRA rules and regulations, in which case the client is acting as either the plan sponsor or IRA accountholder. MJFG is independently owned and operated and not affiliated with Fidelity. Fidelity provides MJFG with access to its institutional trading and custody services, which are typically not available to retail investors.

Factors which MJFG considers in recommending Fidelity or any other broker-dealer to clients include their respective financial strength, reputation, execution, pricing, research and service. Fidelity enables the Firm to obtain many mutual funds without transaction charges and other securities at nominal transaction charges. The commissions and/or transaction fees charged by Fidelity may be higher or lower than those charged by other Financial Institutions.

The commissions paid by MJFG's clients to Fidelity comply with the Firm's duty to obtain "best execution." Clients may pay commissions that are higher than another qualified Financial Institution might charge to effect the same transaction where MJFG determines that the commissions are reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a Financial Institution's services, including among others, the value of research provided, execution capability, commission rates and responsiveness. MJFG seeks competitive rates but may not necessarily obtain the lowest possible commission rates for client transactions.

Consistent with obtaining best execution, brokerage transactions are directed to certain broker-dealers in return for investment research products and/or services which assist MJFG in its investment decision-making process. Such research will be used to service all of the Firm's clients, but brokerage commissions

paid by one client may be used to pay for research that is not used in managing that client's portfolio. The receipt of investment research products and/or services as well as the allocation of the benefit of such investment research products and/or services poses a conflict of interest because MJFG does not have to produce or pay for the products or services.

MJFG periodically and systematically reviews its policies and procedures regarding its recommendation of Financial Institutions in light of its duty to obtain best execution.

Software and Support Provided by Financial Institutions

MJFG receives without cost from Fidelity administrative support, computer software, related systems support, as well as other third party support as further described below (together "Support") which allow MJFG to better monitor client accounts maintained at Fidelity and otherwise conduct its business. MJFG receives the Support without cost because the Firm renders investment management services to clients that maintain assets at Fidelity. The Support is not provided in connection with securities transactions of clients (i.e., not "soft dollars"). The Support benefits MJFG, but not its clients directly. Clients should be aware that MJFG's receipt of economic benefits such as the Support from a broker-dealer creates a conflict of interest since these benefits may influence the Firm's choice of broker-dealer over another that does not furnish similar software, systems support or services. In fulfilling its duties to its clients, MJFG endeavors at all times to put the interests of its clients first and has determined that the recommendation of Fidelity is in the best interest of clients and satisfies the Firm's duty to seek best execution.

Specifically, MJFG receives the following benefits from Fidelity: i) receipt of duplicate client confirmations and bundled duplicate statements; ii) access to a trading desk that exclusively services its institutional traders; iii) access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; and iv) access to an electronic communication network for client order entry and account information.

Fidelity also makes available to the Firm, at no additional charge, certain research and brokerage services, including research services obtained by Fidelity directly from independent research companies, as selected by MJFG (within specified parameters). Without this arrangement, the Firm might be compelled to purchase the same or similar services at its own expense.

Brokerage for Client Referrals

MJFG does not consider, in selecting or recommending broker-dealers, whether the Firm receives client referrals from the Financial Institutions or other third party.

Directed Brokerage

The client may direct MJFG in writing to use a particular Financial Institution to execute some or all transactions for the client. In that case, the client will negotiate terms and arrangements for the account with that Financial Institution and the Firm will not seek better execution services or prices from other Financial Institutions or be able to “batch” client transactions for execution through other Financial Institutions with orders for other accounts managed by MJFG (as described above). As a result, the client may pay higher commissions or other transaction costs, greater spreads or may receive less favorable net prices, on transactions for the account than would otherwise be the case. Subject to its duty of best execution, MJFG may decline a client’s request to direct brokerage if, in the Firm’s sole discretion, such directed brokerage arrangements would result in additional operational difficulties.

Trade Aggregation

Transactions for each client will be effected independently, unless MJFG decides to purchase or sell the same securities for several clients at approximately the same time. MJFG may (but is not obligated to) combine or “batch” such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Firm’s clients differences in prices and commissions or other transaction costs that might not have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and allocated among MJFG’s clients pro rata to the purchase and sale orders placed for each client on any given day. To the extent that the Firm determines to aggregate client orders for the purchase or sale of securities, including securities in which MJFG’s Supervised Persons may invest, the Firm does so in accordance with applicable rules promulgated under the Advisers Act and no-action guidance provided by the staff of the U.S. Securities and Exchange Commission. MJFG does not receive any additional compensation or remuneration as a result of the aggregation.

In the event that the Firm determines that a prorated allocation is not appropriate under the particular circumstances, the allocation will be made based upon other relevant factors, which include: (i) when only a small percentage of the order is executed, shares may be allocated to the account with the smallest order or the smallest position or to an account that is out of line with respect to security or sector weightings relative to other portfolios, with similar mandates; (ii) allocations may be given to one account when one account has limitations in its investment guidelines which prohibit it from purchasing other securities which are expected to produce similar investment results and can be purchased by other accounts; (iii) if an account reaches an investment guideline limit and cannot participate in an allocation, shares may be reallocated to other accounts (this may be due to unforeseen changes in an account’s assets after an order is placed); (iv) with respect to sale allocations, allocations may be given to accounts low in cash; (v) in cases when a pro rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, the Firm may exclude the account(s) from the allocation; the transactions may be executed

on a pro rata basis among the remaining accounts; or (vi) in cases where a small proportion of an order is executed in all accounts, shares may be allocated to one or more accounts on a random basis.

Item 13. Review of Accounts

Account Reviews

MJFG monitors client portfolios on a continuous and ongoing basis while regular account reviews are conducted regularly depending upon the size of the relationship. Such reviews are conducted by the Firm's investment adviser representatives. All investment advisory clients are encouraged to discuss their needs, goals and objectives with MJFG and to keep the Firm informed of any changes thereto. The Firm contacts ongoing investment advisory clients at least annually to review its previous services and/or recommendations and to discuss the impact resulting from any changes in the client's financial situation and/or investment objectives.

Account Statements and Reports

Clients are provided with transaction confirmation notices and regular summary account statements directly from the Financial Institutions where their assets are custodied. From time-to-time or as otherwise requested, clients may also receive written or electronic reports from MJFG and/or an outside service provider, which contain certain account and/or market-related information, such as an inventory of account holdings or account performance. Clients should compare the account statements they receive from their custodian with any documents or reports they receive from MJFG or an outside service provider.

Item 14. Client Referrals and Other Compensation

Client Referrals

The Firm does not currently provide compensation to any third-party solicitors for client referrals.

Other Compensation

The Firm receives economic benefits from Fidelity. The benefits, conflicts of interest and how they are addressed are discussed above in response to Item 12.

Item 15. Custody

MJFG is deemed to have custody of client funds and securities because the Firm is given the ability to debit client accounts for payment of the Firm's fees. As such, client funds and securities are maintained at one or more Financial Institutions that serve as the qualified custodian with respect to such assets. Such qualified custodians will send account statements to clients at least once per calendar quarter that typically detail any transactions in such account for the relevant period. In addition, as discussed in Item 13, MJFG will also send, or otherwise make available, periodic supplemental reports to clients. Clients should carefully review the statements sent directly by the Financial Institutions and compare them to those received from MJFG.

Standing Letters of Authorization

MJFG also has custody due to clients giving the Firm limited power of attorney in a standing letter of authorization ("SLOA") to disburse funds to one or more third parties as specifically designated by the client. In such circumstances, the Firm will implement the steps in the SEC's no-action letter on February 21, 2017 which includes (in summary): i) client will provide instruction for the SLOA to the custodian; ii) client will authorize the Firm to direct transfers to the specific third party; iii) the custodian will perform appropriate verification of the instruction and provide a transfer of funds notice to the client promptly after each transfer; iv) the client will have the ability to terminate or change the instruction; v) the Firm will have no authority or ability to designate or change the identity or any information about the third party; vi) the Firm will keep records showing that the third party is not a related party of the Firm or located at the same address as the Firm; and vii) the custodian will send the client an initial and annual notice confirming the SLOA instructions

Item 16. Investment Discretion

MJFG is given the authority to exercise discretion on behalf of clients. MJFG is considered to exercise investment discretion over a client's account if it can effect and/or direct transactions in client accounts without first seeking their consent. MJFG is given this authority through a power-of-attorney included in the agreement between MJFG and the client. Clients may request a limitation on this authority (such as certain securities not to be bought or sold). MJFG takes discretion over the following activities:

- The securities to be purchased or sold;
- The amount of securities to be purchased or sold; and
- When transactions are made.

Item 17. Voting Client Securities

MJFG does not accept the authority to vote a client's securities (i.e., proxies) on their behalf. Clients receive proxies directly from the Financial Institutions where their assets are custodied and may contact the Firm at the contact information on the cover of this brochure with questions about any such issuer solicitations.

Item 18. Financial Information

MJFG is not required to disclose any financial information due to the following:

- The Firm does not require or solicit the prepayment of more than \$1,200 in fees six months or more in advance of services rendered;
- The Firm does not have a financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients; and
- The Firm has not been the subject of a bankruptcy petition at any time during the past ten years.

We are registered with the U.S. Securities and Exchange Commission as an investment adviser. Brokerage and investment advisory services fees differ and it is important for you to understand the differences. Free and simple tools are available to research firms and financial professionals at <http://investor.gov/crs>, which also provides educational materials about broker-dealers, investment advisers and investing.

What investment services and advice can you provide me?

Our firm offers investment advisory services, which are fully described in our Form ADV Part 2A (“Disclosure Brochure”). Our services include financial planning, consulting, and investment management services. As part of our standard services, we monitor investments that we manage on a continuous and ongoing basis. Financial planning and investment consulting recommendations are not actively monitored. There are no material limitations to our monitoring. We accept discretionary and/or non-discretionary authority to implement the recommended transactions in client accounts. The level of discretion is determined in our agreement and there are no material limitations on the authority. For non-discretionary services, you make the ultimate decision regarding the purchase or sale of investments. We do not offer advice only with respect to proprietary products. We offer advice on mutual funds and exchange-traded funds (“ETFs”). Our services are not subject to a minimum fee or account size.

Additional information about our services can be found in Items 4, 5 and 7 of our Disclosure Brochure and available to all clients or by going here: <https://adviserinfo.sec.gov/firm/summary/297388>.

Let’s discuss...

- *Given my financial situation, should I choose an investment advisory service? Why or why not?”*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

What fees will I pay?

We offer our services on a fee basis. We charge a fixed fee for financial planning and investment consulting and a fee based upon assets under management for investment management and wealth management services. For ongoing services, the annual fee is prorated and charged quarterly.

In addition to the advisory fees paid to us, you also incur certain charges imposed by other third parties, such as broker-dealers, custodians, etc. These additional charges include securities brokerage commissions, transaction fees, custodial fees, margin costs, charges imposed directly by a mutual fund or ETF in a client’s account, as disclosed in the fund’s prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions.

The more assets there are in your advisory accounts, the more you will pay in fees, so the firm may therefore have an incentive to encourage you to increase the assets in your account or manage them in a way where we charge higher fees. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Additional information about our fees can be found in Item 5 of our Disclosure Brochure and available to all clients or by going here: <https://adviserinfo.sec.gov/firm/summary/297388>.

Let’s discuss... Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask

us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

- Support from Custodian: We receive administrative support, computer software, related systems support, as well as other third party support from the custodian that we recommend. This results in an incentive to recommend that custodian because we do not have to produce or pay for the products or services provided.

Let's discuss... How might your conflicts of interest affect me, and how will you address them?

Additional information about our conflicts of interest can be found throughout our Disclosure Brochure and available to all clients or by going here: <https://adviserinfo.sec.gov/firm/summary/297388>.

How do your financial professionals make money?

Our financial professionals are compensated based on the following factors and conflicts of interest:

- Revenue the firm earns from the financial professional's advisory services or recommendations. This results in an incentive to take steps to maximize revenue to the firm.

Additional information about our financial professionals can be found on their respective Form ADV Part 2 Brochure Supplements that you will be provided.

Do you or your financial professionals have legal or disciplinary history?

No, neither we nor our financial professionals have a legal or disciplinary history. You can visit <http://investor.gov/crs> for a free and simple search tool to research us and our financial professionals.

Let's discuss... As a financial professional, do you have any disciplinary history? For what type of conduct?

You can find additional information about our services on our website at <http://marsjewett.com> and in our Disclosure Brochure. To request a copy of this Relationship Summary and any of our other disclosure documents referred to in this document, please email us at scott@marsjewett.com or call us at (425) 289-5000.

Let's discuss... Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?

Mars Jewett Financial Group, Inc., a Registered Investment Adviser

11235 SE 6th Street, Suite 110, Bellevue, WA 98004 | (425) 289-5000
www.marsjewett.com

Item 2. Educational Background and Business Experience

Born 1983

Post-Secondary Education

University of Washington | BA, Business Administration | 2006

Recent Business Background

Mars Jewett Financial Group, Inc. | Shareholder and Investment Adviser Representative | July 2018
– Present

Mutual Securities, Inc. | Registered Representative | July 2018 – December 2020

Cetera Advisor Networks LLC (d/b/a MarsJewett Financial Group) | Financial Advisor | April 2006 –
July 2018

Professional Designation

Brian G. Mars holds the professional designation of CERTIFIED FINANCIAL PLANNER™ (“CFP®”).

The CFP® certification is a financial planning credential awarded by the Certified Financial Planner Board of Standards Inc. (the “CFP Board”) to individuals who meet its education, examination, experience and ethics requirements. Eligible candidates are generally required to have three years of financial planning related experience and possess a bachelor’s degree from an accredited U.S. college or university. Certificants are further required to complete a CFP Board-Registered Education Program (or possess a qualifying professional credential), clear a personal and professional background check, and pass the CFP® Certification Examination, a ten-hour multiple choice exam divided into three separate sessions. In order to maintain the certification, CFP® designees must also complete at least 30 hours of continuing education every two years on an ongoing basis.

For additional information about this credential, please refer directly to the website of the issuing organization.

Item 3. Disciplinary Information

MJFG is required to disclose information regarding any legal or disciplinary events material to a client’s evaluation of Brian G. Mars. MJFG has no information to disclose in relation to this Item.

Item 4. Other Business Activities

MJFG is required to disclose information regarding any investment-related business or occupation in which Brian G. Mars is actively engaged. MJFG has no information to disclose in relation to this Item.

Item 5. Additional Compensation

MJFG is required to disclose information regarding any arrangement under which Brian G. Mars receives an economic benefit from someone other than a client for providing investment advisory services. MJFG has no information to disclose in relation to this Item.

Item 6. Supervision

Scott R. Jewett, Chief Compliance Officer, is generally responsible for supervising Brian G. Mars's advisory activities on behalf of MJFG. Scott R. Jewett can be reached at the firm's main telephone number listed on the cover page of this Brochure Supplement.

MJFG supervises its personnel and the investments made in client accounts. MJFG monitors the investments recommended by Brian G. Mars to ensure they are suitable for the particular client and consistent with their investment needs, goals, objectives and risk tolerance, as well as any restrictions previously requested by the client. MJFG periodically reviews the advisory activities of Brian G. Mars, which may include reviewing individual client accounts and correspondence (including e-mails) sent and received by Brian G. Mars.
